Far beyond the Orion Nebula flies a vast Robot ship on a thousand year quest to find new life forms and gather knowledge of the Galaxy. The ship was sent on its mission by the Markon Empire and is called "The Markon Dawn" as its return will mark the dawn of a new age for the Markon Dynasty.

Installed on this ship was the largest and most powerful computer the Markons had ever created. With great pride they called this computer "The Brain of Markon".

You are the Guardian of The Brain of Markon.

Your Ultimate mission is to defend, maintain and activate The Brain in the event of attack by unfriendly Aliens.

GOOD LUCK.... YOU WILL NEED IT.
